To the Members of our Community,

On behalf of the students and staff at Maplewood Middle School we cordially invite you to participate in our Career Explorations Program. At MMS we strive to provide meaningful educational experiences that stimulate learning and motivate students to continue their education beyond high school, whether in pursuit of a professional or technical career. We would like to invite local professionals to share their educational background and experiences with our students. We hope you will join us as we embark on this new endeavor.

During your visit, a small group of eighth grade students would report to a classroom to hear your 20 minute presentation. A short question and answer period would be provided before students would return to their regular classes. Presented information should include information about your particular career preparation, as well as the events and influences in your life that lead to your career choice. Of course students will want to know the salary range for your profession and the years and type of education required to work in your capacity. Please emphasize the importance of staying in school and always making your best effort, as all adolescents need to hear this message from the adults in their community.

If you are able to participate or would like to request more information about presenting through our Career Explorations Program, please return the form below to Ms. Michaia Brown in the Guidance Office at Maplewood Middle School. Should you have questions, please do not hesitate to call the Guidance Department at (973) 378-7660 (x3030) or send an e-mail to Ms. Kelli Dios kdios@somsd.k12.nj.us or Ms. April Battle abattle@somsd.k12.nj.us.
